

K P VANITHA

Software Engineer | Java Developer

 kpvanitha14@gmail.com

Location: Madurai, India

PROFESSIONAL SUMMARY

Software Engineer with 2 years of experience in Java development, backend application development, API modernization, and software testing in the Banking domain. Skilled in Java, Spring Boot, Spring MVC, REST APIs, SOAP Web Services, Apache CXF, JUnit, and MySQL. Hands-on experience in SOAP-to-REST migration, secure coding, Checkmarx vulnerability remediation, Git-based development, and Agile methodologies. Strong understanding of Object-Oriented Programming, SDLC, API integration, and backend service development. Passionate about building scalable enterprise applications and contributing as a Java Backend Developer.

PROFESSIONAL EXPERIENCE

Capgemini | Software Engineer | Java Developer
Dec 2024 – Present | Bangalore, India

Client: Wells Fargo - Service Vision Platform (SVP)

Role: Java Developer

Domain: Banking

Responsibilities:

- Developed and enhanced RESTful services using Java and Spring MVC as part of large-scale API modernization initiatives.
- Migrated legacy SOAP web services (Apache Axis) to REST APIs and Apache CXF-based services, improving service maintainability and interoperability.
- Designed reusable utility and service-layer components for XML-to-JSON transformation, request-response mapping, and business logic implementation.
- Applied Object-Oriented Programming principles and clean coding standards to develop scalable and maintainable backend applications.
- Developed JUnit test cases for business services, improving code quality, reliability, and defect prevention.
- Performed API validation, integration testing, and functional testing to ensure successful migration and production readiness.
- Identified and resolved security vulnerabilities reported by Checkmarx, implementing secure coding practices and ensuring compliance with enterprise security standards.
- Utilized GitHub and GitSaaS repositories for source code management, branching strategies, pull requests, version control, and code reviews.
- Collaborated with cross-functional Agile teams, actively participating in sprint planning, daily stand-ups, retrospectives, and defect triage activities.
- Created and maintained Manual, Functional, Integration, and BDD test cases using OpenText Octane.
- Developed automation frameworks using Selenium WebDriver, TestNG, Playwright, Cucumber, and Page Object Model (POM) to improve regression testing efficiency.

Human Resource Management System (HRMS) – Capgemini Training Project | 2025

- Designed and developed HRMS using **Java, Spring Boot, and Spring MVC**.
- Built REST APIs following **standard HTTP methods and status codes**.
- Developed UI using **Thymeleaf** integrated with backend services.
- Implemented database operations using **JDBC and JPA (Hibernate)**.
- Unit test cases using **JUnit and Mockito**.
- Used **Git** for version control and collaboration.
- Deployed application locally and monitored performance.

TECHNICAL SKILLS

- **Languages:** *Java, SQL, HTML*
- **Frameworks & Technologies:** *Spring Boot, Spring MVC, REST APIs, Microservices (Basic)*
- **Testing Frameworks:** *JUnit, Mockito, Selenium WebDriver, Playwright, TestNG, Cucumber*
- **Tools:** *Git, GitHub, GitSaaS, Maven, Jira, IntelliJ IDEA, Checkmarx, Octane*
- **Databases:** *MySQL*
- **Methodologies:** *Agile (Scrum), SDLC.*

HIGHER EDUCATION

- Degree:** *Bachelor of engineering in computer Science Engineering*
- Institution:** *Mepco Schlenk Engineering College, Sivakasi, Tamil Nadu*
- University:** *Anna University*
- Graduated :** *2024*

Key Competencies

- | | | |
|------------------------|-----------------------|-----------------------|
| ➤ Java Development | ➤ Backend Development | ➤ Git Version Control |
| ➤ REST API Development | ➤ Unit Testing | ➤ Automation Testing |
| ➤ Spring Boot | ➤ Secure Coding | |
| ➤ API Migration | ➤ Agile Development | |

CERTIFICATIONS

- | | |
|--|-------------|
| ➤ Hacker Rank Certified: <i>MySQL (Basic)</i> | <i>2026</i> |
| ➤ Hacker Rank Certified: <i>Java (Basic)</i> | <i>2025</i> |
| ➤ NPTEL- Operating System – <i>Online Course- IIT Madras</i> | <i>2023</i> |
| ➤ Oxford Achiever English Learning and Assessment – <i>Oxford University Press</i> | <i>2021</i> |
| ➤ ILM Certificate –A+ Grade (<i>Institute of Language Management, Bangalore</i>) | <i>2017</i> |
| ➤ Diploma in Computer Application –A Grade (<i>Sakthi Vinayaga Software Institute, Madurai</i>) | <i>2015</i> |

Soft skills

- | | |
|-----------------------|------------------------------|
| ➤ Problem Solving | ➤ Communication Skills |
| ➤ Analytical Thinking | ➤ Continuous Learning |
| ➤ Team Collaboration | ➤ Quick Learning Ability |
| ➤ Adaptability | ➤ Ownership & Accountability |
